

Euthanasia
should

never

be a solution
for mental
illness.

care
NOT KILL

The government recently delayed the expansion of euthanasia to those with mental illness to March 2024.

A delay isn't good enough – we need to stop this expansion entirely.

Bill C-314 has been introduced in Parliament to stop the expansion of euthanasia to those with mental illness. Your Member of Parliament needs to know you want them to support this bill!

Mental health supports should never include assisted suicide.
